

Tranquility Screens

RELAXATION

Calm, relaxed patients have a better overall experience in your clinic, are more able to communicate, have shorter perceived wait times and need less staff interaction.

Tranquility Screens

A Few Points to Consider...

Calm patients are more able to **Think Clearly and Communicate Better.**

More Enjoyable for patients and staff than daytime television.

Curated Beautiful Ultra High Definition 4k Videos of nature and more that are **Fully Licensed for public viewing.**

Reduce Perceived Waiting Time which is more important of patient satisfaction than actual waiting time.

Reduce Restless Behavior by giving patients a positive and calming distraction to look at while they are in the waiting room.

Decrease Front-Desk Queries which can result in a decrease in staff time and staff stress.

Reduced Noise Level in waiting room due to reduction in patient stress.

Normalized Audio to eliminate having to ride the volume control.

No Repeats for Full Day so as not to drive your staff nuts and new videos are being added all the time.

No Long Term Commitments as our service is month to month.

LESS PATIENT STRESS & ANXIETY
